

FCP200 FLOOR SEALER/FINISH TECHNICAL INFORMATION

General Information

FCP200 Matte Floor Sealer & Finish is a high quality floor sealer/finish designed to give a subtle matte finish.

Mixing and Application

No mixing required. Apply directly from container. Apply FCP200 as necessary to maintain a consistent matte appearance and rejuvenate worn traffic areas. The floor surface must be completely dry and clean. Using a non-linting string mop, professional bar applicator or machine, apply FCP200 in a thin, smooth and even strokes in a north/south direction. Allow to dry and apply a second coat in an east/west direction. Additional coats should be added as necessary to build desired performance level.

Coverage

Coverage Rate is approximately 1500-2000 sq ft (185sq m) per 1 US gallon (3.8 liters)

Shelf Life/Storage Stability

One-year minimum with no jelling or separation on standing if stored in a tightly sealed container
